5. Talked with George Murphy, Joint Committee on Atomic Energy, on 4 August to inquire if the transcript of the hearings of 28 July was ready. Murphy will call when this is complete. In addition, I inquired of Murphy if there were any legislation in process to which a proposed amendment could be attached. The amendment would concern authorization for CIA to in effect certify its employees for access to Restricted Data. Mr. Murphy will advise.

6. Discussed with the Bureau of the Budget and the Office of Defense Mobilization the status of and actions taken on S. J. Res. 106 to establish a commission to investigate the use of radio and television frequencies. (See Memorandum for the Record for further details.)

7. Advised Charles Johnson of the House Post Office and Civil Service Committee staff that upon a review of [redacted] case it had been determined that she would not have to repay the cost of her transportation to her overseas post. He was most appreciative and said he was sure Congressman James C. Davis (D., Ga.) would feel the same way.
